## **Ongoing School Improvement Framework Mahi**

End of Term 2, 2025 - The school expects to see (ERO Statements from the Profile Report January 2023)

Schools use the School Improvement Framework (SIF) as an evaluation tool as part of their internal evaluation cycle. When ERO visits schools they use the SIF in partnership with schools as part of ERO's external evaluations.

The SIF helps schools to identify where they are on an improvement journey, identify next improvement steps, and to monitor progress.

The SIF emphasises those areas that have the greatest impact on learner outcomes; school leadership, teaching and learning, and curriculum. It aligns to ERO's School Evaluation Indicators and includes expectations for schools regarding learner outcomes in the Education and Training Act, Te Tiriti o Waitangi, National Education and Learning Priorities and **Teaching Council of Aotearoa New Zealand Standards for the Teaching Profession.** 

An ERO Evaluation Partner will support schools to use the SIF.

In our preparation visit in 2024, our ERO Evaluation Partner advised that ERO will be looking at the Statement of what *RC expects to see* from our 2023 ERO Profile. As a Senior Leadership Team we have taken these "expects to see" statements and are tracking progress against the SIF.

We will aim to update the board on our 'expects to see' SIF tracking

## SIF document End of Term 2, 2025 - The school expects to see (ERO Statements from the Profile Report January 2023)
